

Proteus Waterproofing

Case Study: Proteus Hot Melt®

The Tottenham Experience, Islington, London

Project Brief

The Tottenham Experience is the largest club shop in Europe, and the facility houses both the Tottenham Hotspurs & their NFL Partners a unique shopping experience. The Tottenham Experience houses an entertainment suite on the top floor which replicates the stadium terracing. The complexity of detailing around the balustrading and steps was overcome by using the internal and external **Proteus Technical Team**.

Proteus Hot Melt® and **Proteus Pro-Therm XPS Plus** offered the perfect solution.

Key Requirements: High Performance Waterproofing

With the podium deck covering 1500m², the **Proteus Hot Melt®** system combined with **Proteus Pro Therm Insulation XPS Plus** was the optimum waterproofing solution for this project with a cost effective, seamless and fast application. This High performance solution worked exceptionally well for our **Proteus Approved Contractor**, who was able to install the system without any complications to the highest standard.

Key Requirements: Quality control

Proteus Waterproofing worked in close partnership with both the Architect, Main Contractor and **Proteus Approved Contractor**, to successfully deliver the project to a very high standard within the required time frame and to the standard required.

Key Requirements: Long term performance

Proteus Hot Melt® is a long lasting robust membrane design to last. The client required both a **BBA Certified** product that offered a 25 year **Guarantee** for the waterproofing system on this project.
